Team,

I know this is a lot to read before the workshop, but we're halfway through the JRA meeting schedule, so now's the time to make time for getting through the materials in advance of the meeting in Boise.

**Subject:** Materials for Workshop #3, Boise Aug 21-22

Hi everyone,

We're looking forward to seeing you for JRA Workshop #3, to be held in Boise from August 21 - 22. This workshop is a mix of looking back (BMP review processes), looking forward (pilots and the JRA agreement) and continuing to work through the substance of best practices around trading (permitting and compliance, roles for states and third parties, adaptive management etc).

We're a little under 2 weeks out and there is a lot to cover. The list of materials may look a bit intimidating, but some are quite short and, if I may be so immodest, I honestly think this is some of our best work yet! We're coming to a place where all of the topics are highly interrelated, and we have tried to reflect that in each of the Discussion Guides.

Attached materials include:

- Agenda and directions to the workshop venue
- Discussion Guide: Project Site Monitoring
- Discussion Guide: Adaptive Management and Effectiveness Monitoring
- Discussion Guide: Sample Agreements
- Discussion Guide: Roles of States and Third Parties (in program administration)
  - Appendix: Delegation of agency authority
  - Appendix: Confidentiality, privacy, and FOIA
- Discussion Guide: Permitting, Compliance, and Enforcement
  - Web bonus: 8 permits with trading language highlighted are available on the project website
- Draft Best Practice: BMP Review and Acceptance

Excited yet? We certainly are. Please follow up with any questions as we get closer to our next meeting and let Musa know about any changes in attendance. As usual, we will provide printed bound copies when you arrive, and these are posted on the project website. Please forward to any other agency staff that plan to attend (or are otherwise interested).

Best,  
Carrie
